Clinic

Welcome

to Blatchford Private Clinic

Blatchford Private Clinic is a leading provider of rehabilitation services to prosthetic, orthotic and mobility patients in the UK. Part of Blatchford Group, with over 130 years of experience in restoring mobility to our patients.

With access to the most advanced technology solutions, a full multi-disciplinary team and on-site manufacturing, we can offer everything you need to regain your mobility 'under one roof'. We understand that you are unique, and our highly experienced team of specialist clinicians and technical staff will work with you to ensure that your treatment is aligned with your personal goals.

Experience Transformative Care with our Prosthetic Residential Rehabilitation Service, in Partnership with Smart Rehab

At the forefront of prosthetic innovation and rehabilitation, Blatchford Private Clinic proudly collaborates with Smart Rehab to offer a comprehensive and personalised Amputee Residential Rehabilitation Service.

This partnership brings together the expertise of two industry leaders to provide unparalleled care and support to individuals navigating life after limb loss.

Within the serene and supportive environment of our residential facility, individuals receive intensive, multidisciplinary rehabilitation tailored to their unique needs and goals. Led by experienced clinicians from both Blatchford Private Clinic and Smart Rehab, our team offers specialised programs designed to optimise physical function, enhance mobility, and promote holistic well-being.

Set in a supportive and nurturing environment, our residents not only learn to adapt physically but also receive invaluable emotional support, fostering resilience and a sense of belonging. Whether adjusting to life with a new prosthetic limb or enhancing mobility skills, at Blatchford Private Clinic, every step forward is celebrated and every achievement is cherished. Our goal is not only to restore mobility but to empower individuals to thrive in every aspect of their lives.

With a focus on individualised care and innovative treatment modalities, Blatchford Private Clinic Residential Rehabilitation Service, in partnership with Smart Rehab, sets a new standard for excellence in amputee care. Step into a future filled with possibility and reclaim your independence with us.

Outpatient Service

Discover newfound independence with Blatchford Private Clinics Outpatient Service.

Dedicated to empowering individuals with customized prosthetic solutions, we offer expert guidance and compassionate care every step of the way. Led by a team of skilled prosthetists and rehabilitation specialists, our outpatient service provides tailored prosthetic fittings, adjustments, and training sessions designed to meet your unique needs and goals. Whether you're a new amputee navigating life with a prosthetic limb or seeking upgrades to enhance your mobility, our state-of-the-art facility and personalized approach ensure a seamless transition towards optimal function and comfort.

Experience the freedom to live life on your terms with Blatchford Private Clinics Outpatient Service. Together, we'll unlock the door to limitless possibilities.

Upper Limb Prosthetics. Unlock Your Potential: Reclaiming Life with Precision and Power.

Where innovation meets empowerment, specialising in advanced myoelectric prosthetic solutions, we are dedicated to helping individuals regain functionality, confidence, and independence after upper limb loss.

Our expert team of prosthetists and rehabilitation specialists combine cutting-edge technology with personalised care to deliver tailored solutions that seamlessly integrate with your unique physiology and lifestyle. From intuitive myoelectric limbs that respond to your muscle signals to meticulously crafted cosmetic prostheses, we offer a comprehensive range of options to meet your individual needs and aspirations.

At our state-of-the-art facility, you'll experience a supportive environment where every step of your journey is guided with compassion and expertise. Whether you're rediscovering the joy of everyday tasks or pursuing ambitious goals, our prosthetic upper limb service is committed to empowering you to reach new heights of functionality and freedom.

Step into a future filled with possibilities. Step into a life reimagined, with Blatchford Private Clinic by your side.

Welcome to our Prosthetic Multidisciplinary Team Service: Where Compassion Meets Expertise

We understand that reclaiming life after limb loss requires more than just physical rehabilitation—it demands a holistic approach that addresses both the body and the mind. That's why our dedicated team of professionals are committed to providing comprehensive care that encompasses not only the physical aspects of prosthetic fitting and rehabilitation but also the emotional and psychological well-being of our clients.

Led by a Rehabilitation Consultant, our multidisciplinary team includes highly skilled specialists: Occupational Therapists who focus on enhancing independence in daily activities, Psychologists who provide invaluable support for mental health and adjustment issues, and Specialist Physiotherapists who tailor rehabilitation programs to maximize mobility and function.

Together, we collaborate closely, drawing upon our collective expertise to create personalised treatment plans that address each individual's unique goals, challenges, and aspirations. Our approach is centred on empowerment, fostering resilience, and nurturing a sense of belonging within our supportive community.

At Blatchford Private Clinic, we don't just restore limbs; we restore lives. Step into a brighter future, where every journey is guided with care, compassion, and unwavering dedication to your well-being.

Wheelchairs and Seating

We provide personalised seating and wheelchair solutions based on a thorough assessment of your needs and preferences. We collaborate with your family, caregivers, and therapists to ensure a tailored solution that enhances mobility and quality of life. Your comfort and well-being are our top priority.

Our specialised wheelchair and seating service offers tailored solutions for individuals who require a private wheelchair and particular seating solutions. We use state-of-the-art technology to create customised solutions that provide maximum comfort, support, and mobility. Offering both manual and powered wheelchairs, we can supply a wide range of options from a variety of leading manufacturers.

Expert Witness Reports

You can feel safe in knowing, that with Blatchford Private Clinic you're in the hands of trained experts. Our legal instruction is taken from solicitors, lawyers and case managers to meet your needs.

We have a wealth of experience dealing with all legal matters that require documentation including:

- Part 35 compliant Expert Witness Reports
- Immediate Needs Assessments (INAs)
- Preliminary reports
- Treatment comparison reports
- Desktop reports

In each case, you need expert advice. You can expect support from our clinical team who can:

- Act as an expert's voice in court
- Provide clinical evaluations
- Offer best practice solutions

Aiding the resolution of the claim and fulfilling our responsibility to the court.

Complex Lower Limb Orthotics

Our clinicians are dedicated to creating functional orthoses that perfectly meet your unique needs and aspirations. We're constantly developing and training ourselves to stay updated with the latest advancements in orthotic technology, ensuring you receive the highest level of support and guidance on your orthotics journey.

Take the first step towards reclaiming the life you deserve with us. We're excited to work with you!

Introducing Tectus®: Freedom to move all day

Unleash your potential and regain confidence in every step with Tectus®, the pinnacle of orthopaedic innovation. Engineered to perfection, Tectus® microprocessor controlled KAFO stands as a beacon of hope for individuals seeking unparalleled stability and freedom of movement.

Crafted with precision and care, Tectus® combines cutting-edge materials and advanced engineering to create a masterpiece of orthotic design. Its lightweight yet durable construction seamlessly integrates with your body, providing a custom fit that feels like a natural extension of yourself.

At the heart of Tectus® lies its groundbreaking hinge mechanism, meticulously engineered to replicate the intricate motion of the human knee. This innovative design not only offers superior stability and support but also allows for fluid, unrestricted movement. Whether you're conquering the trails or simply navigating daily life, Tectus® empowers you to move with confidence and grace.

Designed for athletes, adventurers, and everyday heroes alike, Tectus® is more than just an orthosis—it's a game-changer. Say goodbye to limitations and hello to a life without boundaries with Tectus® by your side.

Experience the future of knee stability. Experience Tectus®.

Introducing the Momentum® Brace: Empowering Mobility, Enhancing Lives

Step into a new era of freedom and comfort with the Momentum® Brace, the ultimate solution for offloading and support. Engineered by Blatchford, a pioneer in orthotic innovation, the Momentum® Brace sets the standard for excellence in ankle-foot orthoses.

Designed with precision and care, the Momentum® Brace offers unparalleled offloading capabilities, providing relief and support precisely where it's needed most. Whether you're recovering from injury, managing chronic conditions, or seeking to optimise mobility, the Momentum® Brace delivers targeted support and pressure redistribution to promote healing and enhance comfort.

Crafted from cutting-edge materials and advanced engineering, the Momentum® Brace combines durability with lightweight construction, ensuring maximum comfort and usability for everyday wear. Its sleek design and customizable fit make it ideal for individuals of all ages and lifestyles, seamlessly integrating into your daily routine without compromising style or functionality.

Experience the difference with the Momentum® Brace. Rediscover the joy of movement, reclaim your independence, and step confidently into a brighter, more active future.

Discover the power of the Momentum® Brace by Blatchford. Your journey to greater mobility starts here.

TECTUS®

Alfie, a British Paralympic weightlifter, has experienced a new lease of life with Tectus®

After multiple unsuccessful surgeries following a knee injury and ruptured Achilles tendon, Alfie suffered chronic sciatic hip pain as a result of unsymmetrical walking with a locked KAFO.

The pioneering technology of Tectus® has enabled her to walk more naturally with confidence, without crutches.

“ I wasn't living; I was existing, and now I'm living. I'm doing what I want - I can go anywhere. ”

Alfie Wright, British Paralympic Weightlifter and Tectus® Wearer

Patient Stories

Steve's Story

60 year old Steve lost his leg after a motorcycle accident that left him with multiple injuries. After the trauma of the accident and the amputation, he then had to undergo a further amputation and skin grafting because of non-healing. By the time he got to Blatchford several months later he was feeling really anxious and frustrated at his slow progress and his skin graft had still not fully healed.

Our 'one stop clinic' approach is right at the centre of what we do. We build everything around the patient to make sure they receive the treatment they need and stay with them until their goals are achieved. In Steve's case:

- Steve came to us for a full Consultant lead MDT assessment. He then went to our residential rehabilitation facility for limb fitting which included intensive physio and hydrotherapy.
- In the interim, he needed a wheelchair so our wheelchair specialists carried out an assessment and we supplied him with a new chair in time for his son's graduation.
- A recurrence of skin-graft breakdown meant a pause in limb fitting was necessary, so we arranged physio back at his home to help maintain his motivation and continue to improve his fitness.
- When healing was slow, we arranged a local tissue viability assessment. Steve restarted prosthetic rehab once the grafted skin was healed.
- Throughout all of this, we stayed in regular touch with Steve and his case manager to ensure his progress continued.
- With regular reviews Steve has made great progress and is now walking confidently and looking forward to resuming the active life he enjoys.

Our Team

For over 130 years, our focus has been about achieving the best possible outcome for every patient. Blatchford Clinic offers patients and their referrers the very best expertise and the latest technology solutions to enable our patients mobility goals to be achieved. Blatchford believes caring for someone means always keeping their best interests at heart. Our highly experienced team works closely to deliver the bespoke treatment and support that each patient requires to achieve their goals.

Jane Muir Principal Prosthetist

I'm Jane, and I work as a Principal Prosthetist at Blatchford's Private Clinic in Sheffield. I hold a BSc (Hons) in Prosthetics and Orthotics and have experience as a CUBS expert witness.

I graduated from the University of Strathclyde in 1989, so I've been in the field for over 33 years, gaining valuable clinical experience as a Prosthetist.

James Cooper Prosthetist

Hey, I'm James, a Prosthetist at Blatchford Clinic in Sheffield. My journey started in machine repair; then I became an Electrician. Inspired by my wife, an Occupational Therapist, I pursued prosthetics, graduating from Salford University in 2015. I love working with patients of all ages and abilities, guiding them through their prosthetic journey. From diverse clinical experiences to exploring new socket technology, I'm dedicated to improving lives. Outside work, I enjoy family time and preparing for our newest addition amidst house renovations.

Graham Buckley Principal Prosthetist

I'm Graham! I work as a Principal Prosthetist in Basingstoke. I've got a master's degree in Prosthetics and Orthotics and a bachelor's degree in the same field. I've been helping lower-limb amputees in complex rehabilitation settings for ten years.

Corrin Smalley Principal Orthotist

I am Corrin and I work as a Principal Orthotist for Blatchford Clinic in Sheffield. I graduated from Salford University in 2001 with a BSc (hons) in Prosthetics and Orthotics. I have spent the last 20 years working within the NHS and private clinics, working with both adults and paediatrics. Postgraduate experience within biomechanics has enabled me to offer training to AHPs. I have also completed Bond Solon training to be able to complete legal reports pertaining to orthotics.

Dominic Atta Principal Orthotist

I'm Dominic, I graduated from La Trobe University in Australia with a Bachelor of Applied Science and Master of Clinical Prosthetics and Orthotics in 2018. Since then, I have run a wide range of Orthotic services within in the NHS, with an interest in complex orthopaedic and neuro cases, as well as taking on lead positions teaching and training other Orthotists and Allied Health Professionals.

Lucy Kissack Physiotherapist

I'm Lucy, and I'm the Prosthetic Physiotherapist at Blatchford Clinics. I qualified as a Physiotherapist in 2017 and have been on a fascinating path ever since. I work in the private sector, focusing on Neuro-Rehab and Prosthetics. My journey in physiotherapy began with a BSc Degree from MMU, but I've continued to expand my expertise with various other physiotherapy-related qualifications. I'm certified by APPI, trained in Ante Natal Pilates, and have a Bobath Foundation qualification. Learning and growing in my field is a personal goal of mine.

Blatchford Private Clinic: Where Your Prosthetic Journey Begins with Flexibility and Support

At Blatchford, we understand that embarking on your prosthetic journey can feel daunting, both emotionally and financially. That's why we're committed to offering a range of flexible options to ensure that access to world-class prosthetic care is within reach for everyone.

With our modular pricing system, you have the freedom to tailor your prosthetic treatment plan to fit your individual needs and budget. Whether you're looking for basic functionality or advanced features, our transparent pricing structure allows you to choose the options that best suit your goals and preferences.

But that's just the beginning. At Blatchford Private Clinic, we believe in the power of confidence through trial. That's why we offer prosthetic trials, allowing you to 'test-drive' different prosthetic solutions before making a commitment. This hands-on approach ensures that you find the perfect fit for your unique lifestyle and mobility needs.

With Blatchford Private Clinic, you're not just getting prosthetic or orthotic care—you're getting a partner in your journey towards a brighter, more active future. **Experience the difference of personalised care, flexible options, and unwavering support at Blatchford Private Clinic today.**
